

News Release

For Immediate Release

Town of Altona Compost Collection

Altona, MB. October 21, 2024:

The Town of Altona is committed to ensuring the continued effectiveness of composting efforts and upholding their strategic priority of good environmental stewardship. The current compost collection contract with Green Opportunities is set to expire on January 31st, 2025. In preparation of anticipated contract changes, the Town is actively seeking viable alternatives to guarantee the ongoing operation of their compost collection service. There are no anticipated interruptions to compost collection for Altona residents in the foreseeable future.

All residents are encouraged to maintain their composting habits during this time. Green bins can be used for kitchen waste, and yard waste, such as branches and grass clippings, can be dropped off at the Altona Rhineland Waste Disposal Site.

Further updates will be provided at www.altona.ca and across Town of Altona social media platforms as they work towards formalizing a long-term agreement with a composting service provider.
